An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Robert D. Fish (Registration No. 33,880) on 11/22/2005.

The application has been amended as follows:

Claim 5 has been cancelled.

The following is an examiner's statement of reasons for allowance:

The reason for allowance is the inclusion of the specific configuration of the claimed invention wherein the front frame has an elastic member on the outside of the upper portion of the upper roller of the front frame and the rear frame has an elastic member on the lower portion of the lower roller of the rear frame in order to relieve an outer force being applied to the stepping means of the claimed invention. The specific configuration outlined above, in combination with the other elements recited was not found in the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
